EDUCATION

GEORGE MASON UNIVERSITY

Bachelor of Engineering

Industrial & Systems Engineering; Technical Emphasis in Electrical Engineering

Fairfax, VA

Expected May 2026

NORTHERN VIRGINIA COMMUNITY COLLEGE

Engineering Coursework

Cumulative GPA: 3.83/4.0; Dean's List 2022

Annandale, VA

Aug 2022 - May 2023

WORK EXPERIENCE

HANDSHAKE AI

AI Trainer

Remote

Nov 2025 – Present

- Performed quality assurance evaluation of 1,000+ technical LLM outputs against defined rubrics, maintaining a 93% quality score and flagging non-conformances for corrective action.
- Evaluated prompt-based test cases and rubrics to train model performance on edge cases
- Collaborated cross-functionally with production team to revise task workflows and documentation, increasing first-pass approval rate by 20%

Senior Design Capstone

Team Lead

Fairfax, VA

Aug 2025 – Present

- Worked directly with the Arlington Water Department to design and develop a dynamic reorder point model that factored in part break history, material type, and weather patterns, replacing “static” reorder points and cutting annual stockouts by 95% and projecting \$1.3M in yearly cost savings.
- Led a 3-person engineering team through 25 weekly sprints, leading stakeholder interviews to find customer quality requirements and translate them into formal system specifications.

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE)

Data Analyst Intern

Praia, Cape Verde

Jun 2025 – Aug 2025

- Processed 1,000+ renewable energy project records across 15 ECOWAS countries, leveraging Python and LLM APIs to cross-reference partner and internal sources, resolving an 85% data error rate.
- Built and presented Tableau and Power BI dashboards to regional analysts and West African policy makers, enabling trend analysis, infrastructure planning, and funding allocation decisions.

HONORS & AWARDS

Gen. Donald R. Keith Memorial Capstone Conference, U.S. Military Academy

United States Military Academy Department of Systems Engineering

West Point, NY

April 23, 2026

- Awarded Best Paper in the Modeling & Simulation track at GDRKMCC-26, a national undergraduate systems engineering capstone conference hosted by the Department of Systems Engineering at the U.S. Military Academy, West Point.

Andrew P. Sage Memorial Design Competition (SMDC-26)

George Mason University, College of Engineering and Computing

Fairfax, VA

April 20, 2026

- Awarded Best Paper at SMDC-26, the 9th Annual Andrew P. Sage Memorial Design Competition, an international forum hosted by George Mason University showcasing undergraduate and graduate systems engineering capstone projects.

ADDITIONAL

Skills: Python, SysML, AI Agents, MATLAB, R, Power BI, Tableau, Excel (VBA), Simulink, AutoCAD, Statistical Modeling, Linear Programming, Discrete Event Simulation, Demand Forecasting, Process Optimization, Inventory Management, Lean Methods, Root Cause Analysis, Problem Solving, Benchmarking
